

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

June 1 through 15, 2001

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **June 1 through 15, 2001**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

In winter, keep the thermostat no higher than 68 degrees F during the day and 55 degrees F at night. In summer, set the thermostat no lower than 75 degrees F. Move shades and curtains to help heat or cool the house.

Federal Notices

<u>Intergovernmental Review Notices (June 1st-15th, 2001)</u>
--

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

AGENCY: Federal Energy Regulatory Commission

CONTACT: Thomas LoVullo

TELEPHONE: (202) 219-1168

E-MAIL: thomas.lovullo@ferc.fed.us

ADDRESS: Federal Energy Regulatory Commission, 888 First Street, NE,
Washington, DC 20426

DESCRIPTION: Olsen Power Partners has filed a hydroelectric application for a Temporary Amendment of License for the Olsen Water Power Project (No. 8361-034). The project is located on Old Crow Creek in Shasta County, California. The project occupies lands of the United States administered by the U.S. Bureau of Reclamation. The proposed temporary amendment of license article 402 would reduce the minimum flow 30 cubic feet per second (cfs), to 16 cfs for a 180 day period from March 1, 2001. Olsen Power Partners stated that studies would be conducted on the effect of the flow and presented at the end of the 180-day period.

COMMENT BY: 14 days from the issuance date of this notice (issued May 31, 2001)

Washington, DC 20426

DESCRIPTION: Symbiotics, LLC, has filed a hydroelectric application for a Preliminary

Permit for the Cherry Valley Dam Hydroelectric Project (No. 12005-000). The proposed project would be located on an existing dam owned by the Turlock Irrigation District, on the Cherry Creek in Tuolumne County, California. The proposed project would consist of: (1) an existing earthfill dam (2) an existing reservoir; (3) a 10-foot-diameter 400-foot-long steel penstock; (4) a powerhouse containing two generating units, with a total installed capacity of 5.2 MW; (5) a 15 kv transmission line approximately 15 miles long; and (6) appurtenant facilities. The project would have an annual generation of 40.8 GWh.

DESCRIPTION: On April 5, 2001, the El Dorado Irrigation District filed a geology and soils plan pursuant to article 68 of the Order Amending License issued February 8, 2001 for the El Dorado Hydroelectric Project. The plan is designed for soil conservation and to protect water quality during the construction of a bypass tunnel to replace a damaged portion of the canal that carries diverted water to the project powerhouse. On April 23, 2001, the licensee filed an amended construction-dewatering plan for the Mill Creek to Bull Creek Tunnel, to supplement the April 5, filing. The Project is located on the South Fork American River and its tributaries in El Dorado, Amador, and Alpine Counties, California, and occupies in part lands in the El Dorado National Forest.

The removal of this road will eliminate disturbance to the eagles (a California Special Concern Species) caused by visitor use. The existing road is approximately 4,600 feet long and is surrounded by exotic and some native grasses along with patches of coastal scrub. The recontoured slopes will be planted with native vegetation. Heavy equipment such as an excavator and bulldozer will be used to eliminate the road and restore the pre-road topography. This will be accomplished by scarifying the roadbed and excavating and redistributing the road fill material. All work will be scheduled to avoid the nesting eagle and other breeding bird season.	Neg	07/02/2001
2001061010	Cold Canyon Landfill Green Waste Compost Facility Expansion San Luis Obispo County San Luis Obispo--San Luis Obispo Expand an existing greenwaste compost facility for curbside green waste program from 5 acres to 12 acres.	Neg	07/02/2001
2001061011	Georgia Pacific Montebello Toxic Substances Control, Department of Montebello--Los Angeles Soil vapor extraction and treatment. Soil vapors will be extracted from currently installed vapor extraction wells and will be brought to the surface for treatment by thermal oxidation.	Neg	07/02/2001
2001062001	Road Repair-Outer Zayante Road PM 2.35 Santa Cruz County --Santa Cruz Proposal to grade approximately 465 cubic yards of soil and rock in order to repair a portion of Upper East Zayante Creek. This project requires a riparian exception and a grading permit. Project is located within the existing right-of-way of Upper East Zayante Road, between the road and Zayante Creek, approximately 2 miles north of the intersection of East Zayante Road and Mountain Charlie Road. 2001062016	<p>Emergency Take Provisions for the Coho Salmon North of San Francisco Fish & Game Commission --Del Norte, Humboldt, Siskiyou, Glenn, Mendocino, Lake, ...</p> <p>The objectives of the project are to allow the take of coho salmon north of San Francisco for certain specified purposes during the candidacy period and to ensure that this take authorization will not result in jeopardy to the continued existence of the species. At this time, the Department has not identified any significant negative environmental effects associated with the proposed project.</p>	NOP	07/03/2001
2001062020	<p>General Order Waste Discharge Requirements for Small-Scale Dredging in the Sacramento-San Joaquin Delta Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento Sacramento, Stockton, Rio Vista, Tracy, Antioch, Brentwood,--Contra Costa, Sacramento, San Joaquin, Solano, Yolo</p> <p>The Regional Board proposes to adopt two separate Tentative General Order Waste Discharge Requirements (WDRs) to regulate small-scale dredging projects in the Delta. One of the Tentative WDRs covers hydraulic dredging projects that remove less than 100,000 cubic yards of material. The dredge material slurry from hydraulic dredging will be placed in a diked disposal facility on land. The material may be removed after drying for reuse at other sites. The other Tentative WDRs covers clamshell dredging projects removing less than 100,000 cubic yards of material with direct placement on land for beneficial reuse (such as for levee work). The EIR will provide a program-level discussion of dredging projects in the Delta and will provide an analysis from which the environmental review of future projects can be "tiered". The tiering process will enable the Regional Board to streamline the environmental analysis of subsequent projects, focusing on site or project-specific environmental concerns. The exact details of the types of projects to be covered might be modified slightly during CEQA process, but the intent to adopt General Order WDRs to regulate small-scale dredging projects in the Delta will remain the same.</p>	NOP	07/03/2001

NOD	
2000122104	The Improvement of Glen Echo Creek from 28th Street to 29th Street - Oakland Alameda County Flood Control and Water Conservation District Oakland--Alameda The proposed project would involve replacement of an existing 100 foot section of an underground corrugated metal pipe culvert with a larger concrete pipe or box. The bottom of an arch culvert upstream of this pipe would be answered and the concrete lining repaired. A short transition would be constructed at the upstream end of the arch culvert. The purpose of the proposed project is to reduce flooding in the Richmond Boulevard area.	NOD	
2001021046	Gonya Grading Permit, L14000, Log No. 00-14-048 San Diego County, Department of Planning and Land Use --San Diego The project proposes to grade and clear 6.35 acres on two adjacent parcels totaling 38.05 acres in preparation for one single family residence, a detached garage, a series of four wildlife ponds, a leach field and at least two equestrian riding areas. Other accessory structures may potentially be added within the identified disturbance areas. Final grading will include the cut and fill of 1750 cubic yards of soil, with none being exported from or imported to the site. Grading will result in a maximum of 8 foot cut slope at a 1 1/2:1 ratio and a maximum 5 foot fill slope at a 2:1 ratio. Mitigation for impacts to coastal sage scrub and non-native grassland vegetation shall include the on-site preservation of 4.70 acres of habitat within an open space easement dedicated to the County of San Diego.	NOD	
2001031010	Tentative Parcel Map 20523 (P 48-007W1); Log No. 00-14-034 San Diego County, Department of Planning and Land Use La Mesa--San Diego The project proposes to subtract out the top portion of the property, Parcel 2, from the Major Use Permit and to develop the site into a single-family residence. A residence is allowed by right in the project's designated zone-RR1 Use Regulation. The Major Use Permit Modification is required because the original Major Use Permit (P48-007) is still operational. A Tentative Parcel Map (TPM 20523) was approved on May 3, 2001 for the parcel creating the two lots.	NOD	
2001031085	Los Berros Road/El Campo Road Left Turn Lanes; ED98-409 (C980031E/P12A278) San Luis Obispo County --San Luis Obispo The County of San Luis Obispo is proposing to construct new left turn lanes on Los Berros Road at its intersections with El Campo Road (both north & south). Construction will occur over an approximate three month period. Construction of the left turn lanes will involve widening the roadway to 48 feet to accommodate two 12 foot through lanes, a single 12 foot center left turn lane, and six foot paved shoulders. 1.9 acres of additional permanent right-of-way will be needed for the	NOD

2001042091	Oak Ridge High School Demonstration Wetlands El Dorado Union High School District --El Dorado Construction of a 0.5 acre wetland pond that includes the removal of fill material previously placed within the New York Creek floodplain and the construction of 4.5 foot high berm at the downstream end of the wetland pond.	NOD	
2001069007	Transit Maintenance and Operations Facility Fish & Game #3 Pinole--Contra Costa To improve drainage and decrease flooding, the operator proposes to desilt approximately 150 linear feet of an unnamed tributary to San Pablo Bay, on the west side of Pinole Shores Drive, approximately 500 feet north of San Pablo Avenue in Pinole, Contra Costa County.	NOD	
2001069011	The Bridges at Rancho Santa Fe San Diego County, Department of Planning and Land Use --San Diego This is a request to modify two major Use Permits located within the Canyon Creek Specific Plan.	NOD	
2001069013	Parker Single-Family Residence San Diego County, Department of Planning and Land Use --San Diego The project proposes to construct a single-family residence on a 1.42 gross acre parcel. The property was rezoned in 1991 from S90 to the current A70 Use Regulation. A "D" designator was placed on the property to require site plan review, further review of on-site biological resources, noise and flooding. An open space easement was dedicated on the rear portion of the property to protect sensitive wetland habitat. The project will erect permanent fencing and signage along the boundary of the biological open space easement. The San Miguel Consolidated Fire District will provide fire service, Otay Water District will provide water and sewer service, and access will be gained by a driveway from Heatherwood Drive.	NOD	
2001068016	Sutter Bypass Flood Control Project - 2001 Facilities Maintenance Water Resources, Department of Yuba City--Sutter The Department of Water Resources, Flood Project Maintenance Branch, Sutter Yard, has maintenance responsibility for this flood control channel, which is part of the Federal Flood Control Project in the Sacramento Valley. The 2001 maintenance proposal involves clearing woody vegetation, primarily dense clumps of 'Sandbar' and other willows, that are hindering the flood flow capacity of the channel at various locations. 2001068024	Agreement R4-2001-0070; O'Neill Forebay Net Pen Fish Rearing Facility Fish & Game #4 --Merced The project will construct and operate a primary floating net pen (rearing pen) that measures approximately 44 feet by 29 feet. The pens will be anchored to the bottom of O'Neill Forebay using from 4 to 8 anchor points and cables. Adequate safety/warning devices will be placed in the area. Operation of the rearing pen, including feeding, cleaning and maintenance of the fish and facility.	NOE	
2001068025	Manhole Removal - Whispering Pines Drive Scotts Valley, City of Scotts Valley--Santa Cruz The project is for the removal of an existing manhole located along Whispering Pines Drive, approximately 300 feet north of Lundy Lane. The existing manhole is obstructing the flow of the drainage ditch to the entrance of the culvert under Whispering Pines Drive, which has created a flood hazard. The pipe running across the creek bed is acting as a dam backing up silt and debris and causing flooding problems. The project includes the removal of the manhole and pipe. A wing wall on the north side of the existing box culvert would be constructed, along with the rebuilding of an apron in the bottom of the creek bed. The new concrete would extend 10 feet beyond the edge of the box culvert. The project is necessary to replace public improvements necessary for the public health, safety and welfare.	NOE

2000092025	Guadalupe Creek Restoration Project Santa Clara Valley Water District San Jose--Santa Clara Restore fish habitat and riparian vegetation along a 1.7 mile segment of the Guadalupe Creek.	NOD	
2000101041	National Training Center California State University Trustees Carson--Los Angeles The proposed campus master plan revision provides for: 20,000 seat soccer stadium, expandable to 27,000; 8,000 seat tennis stadium, expandable to 13,000; Six additional soccer fields; 135,000 gross square foot facility to house the locker rooms, training rooms, coaches offices, food services, administrative offices and other supporting space; Eighteen additional regulation tennis courts; Relocation and reconstruction of the velodrome, baseball and softball fields; Addition of 3,900 parking spaces; Relocation of a segment of the campus road system and a 3-mile jogging trail.	NOD	
2001069008	Contra Costa Power Plant Unit 8 Energy Commission --Contra Costa A nominal 530 megawatt combined cycle power generation project with two natural gas-fired combustion turbine generators, and one steam turbine generator. Additional project facilities include two 195-foot tall exhaust stacks, a 10-cell cooling tower, storage tanks, a control building, and electrical power transformers and transmission facilities to interconnect with the existing PG&E switchyard onsite.	NOD	
2001068057	Newark 2110 Overhead Electric Distribution Facilities Replacement Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Fremont, Newark--Alameda Replace existing overhead electric distribution facilities over a tidal slough.	NOE	
2001068058	LRT Bridge Seismic Retrofit - Tasman Drive Bridge Over the Guadalupe River Fish & Game #3 San Jose--Santa Clara The bridge retrofit will consist of installing steel plates on both sides of each girder, connected with high-strength rods through cored holes. Also, concrete will be added at each abutment to strengthen the diaphragms. Issuance of a Streambed Alteration Agreement Number R3-2001-0168 pursuant to Fish and Game Code Section 1601.	NOE	
2001068059	Bank Stabilization at KP 26.07 Fish & Game #3 --San Mateo The work consists of the removal of approximately 10-15 cubic yards of sand and soil from the bank of the drainage immediately updrainage of the existing culvert. Rock (approximately 10 cubic yards) will be placed in the bottom of the channel in front of the existing culvert and on the regraded slope to reduce erosion.	NOE

2001068060	<p>Culvert Replacement at KP 25.04. Fish & Game #3 --San Mateo</p> <p>The purpose of this project is to replace an existing 750mm culvert that has failed with a new 1050mm reinforced concrete pipe culvert. The new pipe will be jacked in place and will require tracked construction equipment in the creek. New sections of pipe will be lowered by crane from Highway 1 into the streambed for the equipment to jack into place. Once the new pipe is in place, a concrete headwall will be constructed and a debris deflector designed and installed at the culvert intake. Approximately 34 cubic yards of soil will be excavated for the new headwall and at the outfall for rock placement. Rock will be placed at the outfall of the new culvert to reduce erosion on the hill slope and beach. Issuance of a Streambed Alteration Agreement Number 1388-99 pursuant to Fish and Game Code Section 1601.</p>	NOE	
2001068061	<p>Culvert Replacement at KP 25.41. Fish & Game #3 --San Mateo</p> <p>The purpose of this project is to replace an existing culvert that has failed with a new 600mm reinforced concrete pipe culvert. The old culvert will be abandoned. Once the new pipe is in place, a concrete headwall will be constructed and a debris deflector will be designed and installed at the culvert intake. Approximately 1 cubic yard of soil will be excavated for the new headwall. Rock will be placed at the outfall of the new culvert to reduce erosion on the hill slope and beach. Issuance of a Streambed Alteration Agreement Number 1386-99 pursuant to Fish and Game Code Section 1601.</p>	NOE	
2001068062	<p>Transfer of Coverage to El Dorado County APN 15-151-17 (Morid) Tahoe Conservancy --El Dorado</p> <p>Project consists of the sale and transfer of 360 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.</p>	NOE	
2001068063	<p>Transfer of a Residential Development Right to El Dorado County APN 15-340-01 (Wickland III) Tahoe Conservancy --El Dorado</p> <p>Project consists of the sale and transfer of one (1) residential development right from Conservancy-owned land to a receiving parcel on which a single family residence will be permitted. The transfer enables the receiving landowner to carry out the project without any net increase in residential density in the Tahoe Basin.</p>	NOE	
2001068064	<p>Geological Testing (00/01-A-69) Parks and Recreation, Department of --Los Angeles</p> <p>Project consists of conducting exploratory drilling for a geotechnical investigation and clearing brush to allow access for the drilling equipment.</p>	NOE

<u>Documents Received on Wednesday, June 06, 2001</u>			
2001062025	Perez-Shaffer Yolo County Planning & Public Works Department Woodland--Yolo A Tentative Parcel Map (TPM#4452) for the division of an approximately 20 acre parcel into four parcels of five acres each and a conditional (minor) Use Permit for an existing (second) home to remain on proposed parcel 1 as an ancillary dwelling.	Neg	07/05/2001
2001062026	Tonapalo Tahoe Vista Resort, EIAQ-3571 Placer County Planning Department --Placer Redevelopment of beachfront property by removing existing 34 motel units and constructing 22 new timeshare units.	Neg	07/05/2001
2001062027	Sugar Pine Tank Replacement (Timberland Water Company), EIAQ-3563) Placer County Planning Department --Placer Replace existing 12,000 gallon redwood water tank with 30,000 gallon steel water tank.	Neg	07/05/2001
2001062028	Bradshaw Road Bridge Replacement Environmental Review and Assessment, Department of --Sacramento The Sacramento County Public Works Agency is proposing to replace the existing Bradshaw Road bridge at Morrison Creek. The proposed bridge would be a reinforced concrete structure approximately 93 feet (ft.), 6 inches (in.) long and 71 ft., 6 in. wide supported on open column bents with type 25 modified railing on both sides, constructed at the existing 45 degree skew. The new bridge will be approximately 25 ft. wider to the west and approximately 11 ft. wider to the east. It will accommodate four 11-ft. wide lanes, a 12-ft. center median and 5 ft. wide shoulders. Due to finding constraints and existing traffic volumes, the bridge is not being widened to its ultimate six lane width at this time. When the time comes to widen to six lanes., the newer bridge will be easily expandable. Construction would extend approximately 250 ft. north and south of the bridge to conform with the existing pavement widths. Three utilities would be subject to modification within the project limits: overhead electrical and telephone services and an underground high-pressure gas line. Right of way acquisition will be required at five parcels. Permanent right of way will consist of 2354 sq. ft. while temporary construction easements will require 7,935 sq. ft.. Channel work would be confined to that necessary to remove the existing bridge and construct the new bridge. No upstream or downstream work is proposed. During construction, stream flows would be bypassed around the work site by temporary piping. All in-stream work is proposed to be done in conformance with California Department of Fish and Game's requirements. Construction would be staged in order to accommodate traffic on Bradshaw Road during construction.	Neg	07/05/2001

2001061032	<p>Norwalk Redevelopment Project Area 3 Norwalk, City of Norwalk--Los Angeles</p> <p>The Project is to adopt a Redevelopment Plan for Norwalk Redevelopment Project Area 3. The Project will establish a redevelopment project area covering an estimated 677 acres in the City of Norwalk. The proposed Redevelopment Plan will not identify any specific development projects. Rather, the proposed Redevelopment Plan will allow the Agency to participate in various programs and activities (including infrastructure construction and the establishment of property-improvements, loans and grants) aimed at encouraging private investment within the Project Area. The ultimate goal of the proposed Redevelopment Plan is the preservation and upgrading of the City's commercial, industrial, and residential neighborhoods along several arterial streets while improving its office, commercial and industrial areas to the extent that business attraction and retention will be more readily achievable than at present. Thus the proposed Redevelopment Plan is expected to facilitate residential, office, commercial, industrial and public development and rehabilitation in conformance with the General Plan and to mitigate various "blighting" conditions within the Project Area.</p>	NOP	07/06/2001

2001062033	Wilcox High School Performing Arts Center Santa Clara Unified School District Santa Clara--Santa Clara The Santa Clara Unified School District proposes a joint project with the City of Santa Clara to construct an approximately 24,000 square foot performing arts center building within the existing quad of the Wilcox High School campus. Two new parking lots will be constructed within campus to replace parking spaces lost due to construction of the performing arts center. The high school is expected to present roughly two performances per school quarter, which would replace performances that are currently being held in the high school's multi-purpose room. The City's performances are currently being held at the Community Recreation Center at Kiely Park. The school's performances would typically be on Thursdays, Fridays, and Saturdays and the City's use would usually be on Saturdays and Sundays. The performing arts center would consist of a 356-seat theater, a lobby with concession stand and restrooms, a stage, backstage with preparation area and scene shop, and a "black box" rehearsal area.	Neg	07/06/2001
2001062034	Anthony W. Kast Tentative Parcel Map Siskiyou County Planning Department --Siskiyou The applicant requests Tentative Parcel Map approval to divide a 140.1 acre parcel into one 46.8 acre parcel and a 93.3 acre remainder parcel. The proposed boundary line would originate from the approximate centerline of Mill Creek along the existing western boundary line of the subject parcel, proceeding east for 934 feet, then south to the existing TPZ-B-80 zoning district contour line and then	Neg	07/06/2001

2001068085	Waste Discharge Requirements Order No. 5-01-107, NPDES No. CA0004863, Mirant Delta LLC, Contra Costa Power Plant, Contra Costa County Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento Antioch--Contra Costa The Contra Costa Power Plant (CCPP) uses water from the San Joaquin River to cool electrical generating units. Cooling water is drawn from and discharged back to the San Joaquin River. The owner and operator of the CCPP, Mirant Delta LLC, has proposed construction of a 530 net megawatt combined cycle power generation unit, Unit 8. Unit 8 would be located within the existing CCPP site complex and will rely on the existing CCPP systems including plant process make-up water, wastewater treatment systems, cooling water supply, fire water supply, and other ancillary systems. As proposed, Unit 8 will require no new water intake or discharge structures. Cooling water from the operation of the existing Units 6 and 7 would be used for Unit 8, with no increase in temperature of the discharge as a result of the proposed project. The discharge of water to the San Joaquin River, a water of the United States, is conducted pursuant to a National Pollutant Discharge Elimination System (NPDES permit) issued by the Central Valley Regional Water Quality Control Board (Regional Board). The Regional Board adopted a renewed NPDES permit for the CCPP, including Unit 8, on April 27, 2001.	NOE

2001062047	<p>McKays Point Reservoir Dredging Project Northern California Power Agency --Calaveras, Tuolumne</p> <p>During the winter of 1997, a large landslide occurred to the east of Dorrington which terminated at the Sourgrass Campground on the North Fork Stanislaus River. Trees, soil, sand, gravel and other debris from the slide were carried to McKays Point Reservoir by high instream flows, much of which settled within the reservoir area. At the present time, the Northern California Power Agency is considering two alternative dredging methods to remove the accumulated sediment in McKays Point Reservoir (approximately 265,000 cubic yards). The first method includes the use of a conventional clamshell dredging operation using load barges on the reservoir to drain the sediment prior to trucking it to a disposal site. The other method includes the use of a slurry pump dredge discharging to elevate thickener tanks onshore. The slurry would settle in the tanks and the thickened slurry would be loaded in trucks with water-tight beds for transport to a disposal site.</p>	NOP	07/10/2001
2001062049	<p>Richard Novak Capitola, City of --Santa Cruz</p> <p>The proposed project would take place on two parcels, Parcel A (505 and 505 1/2 Riverview Drive) and Parcel B (505A Riverview Drive). Parcel A is 2006 sq. ft. in size, and has a 996 sq. ft. two story single family residence for 505 Riverview Drive, an 890 sq. ft. two story single family residence for 505 1/2 Riverview Drive, and a 118 sq. ft. breezeway. The total square footage of structures on Parcel A is 2,004 sq. ft. Parcel B is 2,744 sq. ft. in size, and has a 1,610 sq. ft. story structure with basement. The applicant is proposing to demolish the two existing units on Parcel A and construct a 1,813 sq. ft. two story single family residence dwelling. The height of the new single family residence would be 26-feet 6-inches. Parcel A would have three parking spaces on site (one covered and two uncovered). The applicant is proposing an addition of 581 sq. ft. and remodeling the existing single family residence on Parcel B. The height of the new single family residence would be 25-feet. The parking for the proposed project would be on a neighboring property.</p>	NOP	07/10/2001
2000102062	<p>Elementary School Site Acquisition Development/Operation-Walnut Avenue Turlock Joint Elementary School District Turlock--Stanislaus</p> <p>Acquisition of a 19.85 acre school site and the construction and operation of an elementary school for kindergarten through sixth grade. Project will be developed in multiple phases to Master Plan capacity of 1,400 students. The southeastern portion of the property will be used for District administration and storage facilities on an interim basis.</p>	Neg	07/10/2001

	teachers and 1 to 2 other staff members. The grade levels in the program are K through 12. The proposed project will serve the existing residents of the Children's Home, therefore, the project does not represent an expansion of the existing school use. The proposed school will not serve children in the Los Guilucos Juvenile Detention Center. The new facility will consist of a total of three (3) modular structures, including two classroom units and a gymnasium. The facility will also feature a parking lot with capacity for 12 vehicles. The project site is located within the City of Santa Rosa, and will receive City sewer and water service from existing infrastructure within the Los Guilucos center.

1994123007	<p>San Francisco Cruise Terminal Mixed Use Project & Brannan Street Wharf Project (2000.1229E)</p> <p>San Francisco, City and County of</p> <p>San Francisco--San Francisco</p> <p>The proposed project would involve the construction of two berths, including necessary dredging, and a new terminal for cruise ships that call at the Port of San Francisco, as well as ancillary commercial development, all on Pier 30-32. The proposed project also would include construction of a residential project on Seawall Lot 330, across The Embarcadero from Pier 30-32. The cruise terminal is proposed to contain about 100,000 sf of floor area, while the commercial component is proposed to include about 460,000 (gsf) of office space and about 220,000 gsf of retail, restaurant and entertainment (cinema) space. About 450 parking spaces would be provided on the pier. The proposal includes repairing and reconfiguring the pier to provide waterfront open space, berthing for ferries and recreational boats, and preservation of Red's Java House. The residential component, on the block bounded by The Embarcadero, Beale and Bryant Streets, would include approximately 350 dwelling units and about 350 off-street parking spaces. The SEIR will also analyze the proposed Brannan Street Wharf in the current location of Piers 34 and 36, which would be demolished to create waterfront open space and to enable the construction of an approximately 57,000-square-foot park along The Embarcadero. This project would be implemented by the Port on a separate timeline.</p> <p>The Supplemental EIR will supplement the Waterfront Land Use Plan EIR (Case No. 94.115E, SCH# 1994123007, certified January 9, 1997). The Supplemental EIR will describe changes in the setting since certification of the Waterfront Land Use Plan EIR, as well as any new information that has become available, and will assess project-specific, cumulative, direct, and indirect impacts affecting the physical environment. It is currently anticipated that the Supplemental EIR will update the following areas from the Waterfront Land Use Plan EIR: land use, visual quality, transportation, air quality, hydrology, and water quality, wind, shadow, and hazardous materials.</p>	NOP	07/13/2001

2001068165	Culvert Addition Project Fish & Game #3 Healdsburg--Sonoma Saint Francis Winery proposes to extend a culvert to allow widening of an access road to their vineyards. A new, 20-foot section of a 4-foot culvert will be added to the existing culvert. The streambed upstream of the existing culvert will be over excavated to allow the new culvert to be slightly below grade. Rock armor will be placed upstream of the new culvert and downstream of the existing culvert to control erosion. The total impact area will be about 30 feet of stream length and 1500 square feet of area. No equipment will be operated in the stream channel. Applicant proposes to reseed the disturbed area with ground cover vegetation similar to that already on the site. Issuance of a Streambed Alteration Agreement Number R3-2001-0293 pursuant to Fish and Game Code Section 1603.	NOE	
2001068166	Leasing of Existing Office Space Corrections, Department of --Fresno The Department of Corrections is proposing to lease approximately 4,600 net usable sf of existing office space.	NOE	
2001068167	Leasing of Existing Parking Lot Corrections, Department of San Francisco--San Francisco The Department of Corrections is proposing to lease 40 parking spaces for State Vehicles.	NOE

2001068168	Concrete Pit Toilet Installation Forestry and Fire Protection, Department of --Tulare Five concrete pit toilets will be installed in three campgrounds on the Mountain Home Demonstration State Forest. Four of the toilets will be replacing existing facilities and one will be an addition. The toilets will be American with Disabilities Act (ADA) compliant. The successful bidder will perform the installations. The proposed sites are all in flat terrain and minimal surface disturbance will be required, aside from excavating the holes. The footprint of each structure is about 124 square feet. The areas have been surveyed by an archaeologist and found to be free of cultural sites.	NOE	
2001068169	Office of Administrative Law Office of Administrative Law Sacramento--Sacramento The Office of Administrative Law (OAL) is proposing to lease new office space as a result of another party acquiring OAL's existing office space effective January 1, 2002.	NOE	
2001068170	Installation of Driveway/Parking Lot Lighting at Saratoga High School Los Gatos-Saratoga Joint Union High School District Saratoga--Santa Clara Installation of 6 new light standards (25 foot single fixture) within the new driveway/parking lot adjacent to Saratoga-Sunnyvale Road frontage of Saratoga High School and the replacement of 3 existing fixtures and the addition of 3 new fixtures in the south parking lot.	NOE	
2001068171	Microturbine Power Station Project San Elijo Joint Powers Authority --San Diego San Elijo Joint Powers Authority, a public agency, proposes the installation and operation of three cogeneration microturbine units at its existing water reclamation facility. The microturbines will be fueled by digester gas to produce electricity. The waste heat from the turbines will be used to heat the existing closed-loop, heated water system that heats the digester sludge. Currently, the facility is permitted by the SPAPCD to burn the digester gas into the atmosphere, without the use of cogeneration. This project will significantly reduce the air emissions resulting from the treatment of digester gas.	NOE	
2001068172	Tram Conference Room Bridge Parks and Recreation, Department of --Riverside Project consists of developing a bridge from the Pacific Crest building to the top of the retaining wall, in order to ensure ADA accessibility.	NOE	
2001068173	Grounding of Phone Cable/Underground (00/01-1B-34) Parks and Recreation, Department of --Riverside Project consists of excavating two 4'x4' holes to ground the existing underground phone cable that is 20 feet west of the entrance road to Lake Perris SRA.	NOE

2000061141	Pier J South Marine Terminal Project Long Beach, Port of Long Beach--Los Angeles Redevelopment of approximately 385 acres of marine container terminal space including filling of approximately 115 acres of water area, removal of 15 acres of existing land, and construction of wharves, buildings, and utilities.	EIR	07/30/2001
2000072057	City Hall Project Sacramento, City of Sacramento--Sacramento The proposed project includes the construction of a 200,000 square foot office building behind City Hall. The Proposed Project consists of four main components: (1) relocation of the Sacramento International Youth Hostel from its current locations at the southeast corner of 9th and H Streets to the northwest corner of 10th and H Street, (2) demolition of the City Hall Annex/Firehouse, Prom and Richardson Buildings, (3) construction of a multi-level office building on the Half-block behind City Hall, and (4) the seismic retrofit and exterior repair of City Hall.	EIR	07/30/2001
2001061069	Strategic Framework Element San Diego, City of San Diego--San Diego Amendment of the City of San Diego General Plan to provide a long-term strategy for accommodating the City's forecasted population growth and development through effective and innovative redevelopment and infill. Intent of the proposal is to create subregional and more localized centers. These centers would include a mix of land uses which would incorporate public spaces and higher density residential uses. Efficient improved public transit is an essential component of the proposal. Existing and planned transit corridors would be proposed for mixed use intensification.	NOP	07/16/2001
2001061073	Weyrick Development Plan and Reclamation Plan; ED00-527 (D000015D) San Luis Obispo County --San Luis Obispo Extraction of 45,000 cubic yards of sand and gravel annually from a 10 acre area on the Salinas River that is mostly devoid of woody vegetation. Mining will involve skimming sand and gravel directly from the river bed using a rubber tire dozer, and stockpiling it on site near the unimproved Wellsona Road. It will be screened, if necessary, before being placed in stockpiles for loading into trucks. Approximately one foot of material will be removed at a time, and that amount will be uniform across the channel. Skimming will not occur when water is present.	NOP	07/16/2001
2001062066	Proposed Amendments to District Rule 2.14-Architectural Coatings Yolo-Solano Air Pollution Control District Dixon, Rio Vista, Vacaville--Solano, Yolo The proposed project is to amend existing Rule 2.14, Architectural Coatings, to incorporate - with some modifications - the volatile organic compound (VOC) limits and other requirements contained in the state Suggested Control Measure (SCM) for Architectural Coatings adopted by the California Air Resources Board on June 22, 2000. The SCM sets allowable VOC content limits and other requirements (based on existing and current developing coating technologies) for a number of architectural coating categories, including flats, non flats, industrial maintenance,	NOP	07/16/2001

1996101038	Santa Fe Energy Resources Oilfield & Landfill Expansion ED88-329 San Luis Obispo County TAFT--San Luis Obispo A request for approval of: 1) an existing oil field consisting of 63 oil wells, oil storage facilities, pipelines and vehicular access roads; 2) an expansion of an existing 2.3 acre landfill to 5.1 acres; and 3) installation of 20 new oil wells, 3.5 miles of new oil and gas pipelines, six new well drilling pads, and 0.6 miles of new vehicular access roads.	Neg	07/16/2001
2001061064	Fairfield Residential Apartments Torrance, City of --Los Angeles The project is a proposal to construct a 296-unit, four-story apartment complex on property currently used as surface parking for a commercial office complex. The units will range in size from approximately 600 to 1200 square feet and would include studio, one-bedroom and two bedroom configurations. The complex would include outdoor courtyards with a pool and garden areas as well as a common recreation room. The project includes two four-level parking structures for the residential use as well as one six-level structure for the commercial uses. The project will be considered a mixed-use project and will feature pedestrian and vehicular integration with the commercial property. The project consists of a 296-unit apartment complex with a gross size of 316,041 square feet, to be located on a 5.3-acre site. The resulting density of the proposal is 56 units per acre and the residential project has a Floor Area Ratio (FAR) of 1.37.	Neg	07/16/2001
2001061065	County of Monterey/Old Jail Demolition Monterey County Planning & Building Inspection Salinas--Monterey The County of Monterey has applied for a demolition permit to demolish the old Monterey County Jail in its entirety, making the site available to the County for future development of office space. Demolition would occur over a 60 to 90 day period. The structure is currently used as a court holding facility and storage area. The use of the structure as a court holding facility would be relocated to the adjacent North Wing of the County's Courthouse complex, primarily to increase the holding capacity and improve security. 1992101099	TM 5139 RPI 3 Log No. 98-19-013 Sunroad Centrum San Diego County, Department of Planning and Land Use Otay--San Diego This is a request for a 12-month extension of Interim Ordinance Number 9226, which established a 45-day interim prohibition on certain uses within the East Otay Mesa Specific Plan Area and an amendment to the land use map, shown in Ordinance No. 9226 as Exhibit A, to reflect the land use pattern in the proposed Specific Plan Amendment. The Interim Ordinance, approved by the Board of Supervisors on June 21, 2000, and extended for 10 months and 15 days on July 26, 2000, restricts incompatible uses in the East Otay Mesa Specific Plan Area until the Specific Plan is comprehensively updated to more fully guide land use, infrastructure and facility financing. The Ordinance identifies and reserves an area for a potential regional technology business park development and segregates impactive heavy industrial uses from other industrial uses. The Ordinance also allows temporary uses, but prohibits the siting of incompatible uses.	NOD
